

Challenge – Memorabilia, Holding Album, Journaling Notes

Goals for this Challenge

- Make it easy to find Journaling Notes and Memorabilia
- Adding Journaling and Memorabilia to your Digital Photos
- Learn to create a “Holding Album” for maximum efficiency.

Step 1 – Gather

- Gather all your memorabilia into one spot

Step 2 – Choose your storage system

- Options:

File folders

[Fab Files](#)

Oversized manila envelopes

The flat 12x12 boxes you’ve emptied during the paper sorting process.

Scan items and add them to your Digital Photos file

Step 3 – Sort and Label

- Add labels to your chosen file folder, manila envelope or plastic box and put them in chronological order.
- Sort memorabilia into “containers” by event.
- Info to include: event name, date, location of pictures (physical and/or digital), location of journaling notes
- File or Store (if boxes), chronologically

Step 4 - Creating a Holding Album

What is a “Holding Album”?

A Holding Album provides a place for everything you need in one easy to access “book”. I recommend a Create & Carry Binder, Spinder Binder, or just a single Spinder to be the basis for your Holding Album. Use ScrapRack pages to store items in project groups.

- Sort pictures into ScrapRack page “pockets” grouped as layouts – I use 6 pictures per 12x12 page as my guide. Add a label indicating the album and the number of layouts you are planning.
- Use pocket pages to hold all of your memorabilia.

- 12x12 pocket pages work great for adding any special products you've purchased to go with your pictures and memorabilia.
- Use "sticky notes" to tag each event in your holding album.
- For creating multiple albums (family, grandparents, individual children), use a chart to reference main events and number of layouts.
- Put your chart in the front of the Spinder. When you complete each layout you can cross it off the list. You'll know you're done with all of the albums when your pockets are empty. Then you can reload the pockets and create another holding album for your next project.

Benefits of using a Holding Album

- Ease of access to your supplies
- No duplication of handling materials
- Easy to go to a crop or scrap at home
- Perfect when shopping for coordinating products
- You don't have to rely on your memory for multiple-albums with similar layouts.

Memento Challenge Assignment Checklist

- Sort your memorabilia into a Filing or Storage System.
- Create an "incoming" memento organizing station or kit.
- Label memorabilia with location of coordinating pictures and journaling notes.
- Create an on-line Journal on your "desktop" so you can easily add to it. If you use a smart phone, include the journal in your "sync" function so you can add notes using your phone.
- Start a "Holding Album" for your next or current scrapping project.
- Sort 1 container of photos.
- Sort 1 container of "stuff"
- Sort 4" of paper
- Post your progress on the [FaceBook group](#) or send us an email.
- When you complete this challenge, celebrate with reward #7
